HATCHERIES AND DEALERS Participating in the NATIONAL POULTRY IMPROVEMENT PLAN

U. S. DEPT. OF AGRICULTURE
NATIONAL AGRICULTURAL LIBRARY

APR 21 1967

CURRENT SERIAL RECORDS

SERVICE OPERATIONS
DIVISION

The publication of this list is for the purpose of developing greater efficiency in the operation of the National Poultry Improvement Plan. Additional information regarding these hatcheries and dealers may be obtained by writing to them, or to the Official State Agency in their respective States. Due to the fact that changes frequently occur in this list, it is suggested that anyone desiring to purchase hatching eggs or chicks from the listed hatcheries write the Official State Agency before making such purchase. Supplements to this publication, containing changes in participation, will be published periodically.

INTRODUCTION

The hatcheries and dealers listed in this publication are participating in the National Poultry Improvement Plan, according to reports submitted by the Official State Agencies. The participants are listed alphabetically by States.

The name and address of the Contact Representative and the Official State Agency are shown at the beginning of the list of hatcheries for each of the cooperating States.

The figures in the column immediately following the name and address of the participant show, for hatcheries, the hatching egg capacity (manufacturer's rating including setting and hatching trays). For dealers, this column indicates the type of products the dealer offers for sale by the following code: DE - Hatching Egg Dealer; DC - Chick Dealer; DEC - Dealer in both hatching eggs and chicks.

The letters which appear under the appropriate classification headings show the breed, variety, or type of stock produced by the participant. The number used in connection with the code letter indicates the strain or trade name of the breed, variety, or stock produced, except in the case of the code letters r, w, x, y, and z where the numbers indicate the variety or breed. Crosses are designated by combining the code letters and numbers of the parent stocks involved with the code letter of the male indicated first. For example, b1c9 would indicate Anderson Rhode Island Red males mated to Bishop Barred Rock females.

The numbers preceding the name of the State, combined with the numbers preceding the name of each participant, constitute the participant's approval number. For example, the approval number for the first hatchery listed on page 11 is 64-15. The number 64 represents the State of Alabama and the number 15 represents the Alabama State Hatchery, Ashford Highway, Dothan 36302. The assigned numbers may be used for shipping labels, certificates, invoices, and other documents for participant identifications. They may also be used as reference numbers for shipments to a Member State of the European Economic Community.

This list should be helpful in finding the classification of the product of the hatchery or dealer from whom purchase is to be made. Information concerning the status of products of hatcheries not listed may be obtained by writing to the Contact Representative.

The code used to indicate the breed, variety, or type of stock is as follows:

a - White Leghorn

1 - Anthony	31 - Ghostley	122 - Pa.-Ind. Farm Bureau

The commercial products, eggs or chicks, from these stocks are eligible for the classification
"U. S. Certified for Eggs."

The following stocks, listed in the alphabetical sequence of their breeders, qualified as Performance
Tested Parent Stock for Eggs during the 1964-65 or 1965-66 Random Sample Test Year:

Breeder	Stock	Test Year in Which Stock Qualified	
		1964-65	1965-66
